

To the FCC,

The reason the "DO NOT CALL" law was enacted in the first place is because of the constant harassment and bombardment of calls to our homes by telemarketers. I have had rude and obnoxious calls from many. They call at all hours of the day and night. They call during dinner and when my children are sick. I do not want them calling me. It's bad enough that my personal information is given out to every Tom, Dick, and Harry operation that wants it now, thanks to the way PRIVACY has been taken away by the interpretation, or misinterpretation of the freedom of information act. Every private citizen I have conversed with regarding the "DO NOT CALL" law thinks it is great. Maybe, you should take a survey of them and adhere to their wishes. And perhaps, you should spend more time monitoring, and stopping the vulgar language and other foul talk that continually plays out on television and radio. Let the private citizen have his PRIVACY.
